PROFESSIONAL EXPERIENCE

Full Stack Developer | **Dokume India Pvt Ltd** — **Feb 2026 – Present**

- Building an enterprise HR Management System and admin console in Vue.js and React.js on a Node.js/Express backend, spanning employee records, leave, attendance, and org-hierarchy modules.
- Implemented multi-tenant RBAC, authentication flows, and granular module-level permissions per client.
- Designed REST APIs in Node.js/Express on PostgreSQL and MySQL; tuned indexes and rewrote slow queries behind high-volume employee listing, search, and reporting screens.
- Built a shared Vue.js/React.js component library used across teams, cutting UI development time by **25%**.
- Containerized services with Docker for consistent dev, staging, and production environments.

Full Stack Developer | **Fple Technology Pvt Ltd** — **Nov 2023 – Jan 2026**

- Improved load performance by **30%** across production apps through route-level code splitting, lazy-loaded components and images, memoization, and Vite build optimization.
- Accelerated feature delivery by **20%** with reusable Vue.js, Nuxt.js, and React.js components; standardized state management on Pinia and Redux Toolkit, reducing UI regressions.
- Configured GitHub Actions CI/CD pipelines for automated builds, tests, and deployments.

Online Gaming Platform · *Vue.js, Pinia, Node.js, WebSockets*

- Built the player-facing web app in Vue.js and Pinia, covering game lobby, tournaments, live leaderboards, wallet, and transaction history, with mobile-first layouts serving thousands of active players.
- Implemented real-time leaderboard and match updates over WebSockets, and integrated REST and GraphQL APIs for player accounts, wallets, and transactions.
- Delivered the operations back-office with RBAC, player management, and reporting dashboards.

E-commerce Application · *Nuxt.js, Vue.js, Pinia, Tailwind CSS*

- Developed the Nuxt.js storefront with server-side rendering for SEO-indexable product pages, along with faceted search and filtering, product detail, cart, and checkout flows.
- Integrated payment gateway and order-management APIs into mobile-first checkout flows.
